## AUGUSTANA COLLEGE

Program Contact Information	
Program Name	<b>Augustana College Diversity Fellowship Program -- Doctoral candidate or recent doctoral graduate</b>
Location	Rock Island, IL
Website	<a href="#">WEBSITE</a>
Point of Contact	Jessica Schultz: Associate Dean of the College jessicaschultz@augustana.edu
Fellowship Characteristics	
Posted	November 23, 2020
Closes	Open Until Filled
Application Review	January 15, 2021
Start Date	August 2021-2022 Academic Year
Primary Focus	Perinatal/Reproductive Psychiatry and Trauma
Fellowship Duration	10 Months
# full-time positions	N/A
Description	<p>The Diversity Fellowship program supports a doctoral candidate or recent doctoral graduate from an underrepresented group to engage in teaching and research in a liberal arts college environment and prepare for a tenure-track position.</p> <p>This fellowship is open to all disciplines. Fellowship invites applications from graduate students who will use the fellowship to complete their dissertation or early career scholars within two years of completing their terminal degree who will use the fellowship to hone teaching skills and advance their scholarly agenda. Total compensation in the first year is \$40,000 (to be split between research support and salary, at the discretion of the fellow); the fellowship also comes with benefit eligibility and a relocation allowance. In the first year, the fellow will teach three courses, preferably, one fall semester course, one intensive J-term course, and one spring semester course.</p>

## KAISER PERMANENTE

Program Contact Information	
Program Name	<b>Kaiser Permanente Northern California Maternal Mental Health Postdoctoral Fellow</b>
Location	Oakland, California
Website	<a href="#">WEBSITE</a>
Point of Contact	Dr. Lyndsay Avalos PHD, MPH Lyndsay.A.Avalos@kp.org
Fellowship Characteristics	
Posted	December 11, 2020
Closes	June 2, 2021
Application Review	N/A
Start Date	N/A
Departmental Affiliation	Psychiatry
Primary Focus	Maternal Mental Health and Substance Use
Fellowship Duration	2 Years (Possibility of up to 4 Years)
# full-time positions	N/A
Description	<p>The Postdoctoral Fellow will work in collaboration with Drs. Lyndsay Avalos and Kelly Young-Wolff, Research Scientists at the DOR and will work on a variety of research ranging from epidemiological studies, clinical trials, and health care delivery. S/he will lead analyses and prepare manuscripts by utilizing already collected data from several NIH- or foundation-funded studies related to the identification and prevention of perinatal depression and anxiety; the epidemiology of perinatal depression and substance use on child development, behavioral and mental health outcomes; the impact of prenatal care on maternal and perinatal outcomes; and outcomes of intervention trials designed for women with perinatal depression. The fellow will be expected to analyze data, write papers, present at national scientific meetings and assist in the preparation of grant proposals.</p> <p><b>Requirements:</b> A doctoral degree (PhD, DrPH, MD, ScD) in epidemiology or related field.</p>

## LIFELINE4MOMS / UNIVERSITY OF MASSACHUSETTS

Program Contact Information	
Program Name	UMass Medical School Postdoctoral Associate
Location	Shrewsbury, MA
Website	<a href="#">WEBSITE</a>
Point of Contact	Robyn Leonard Robyn.Leonard@umassmed.edu
Fellowship Characteristics	
Posted	September 29, 2020
Closes	Open Until Filled
Application Review	N/A
Start Date	N/A
Departmental Affiliation	Psychiatry
Primary Focus	Women's Mental Health and Integrated Care
Fellowship Duration	2 Years
# full-time positions	1
Description	<p>Research-focused post-doctoral fellowship provides training on integrating mental healthcare into maternal and child health care settings that have not traditionally provided mental health care. Fellows will work on projects that aim to build the capacity of maternal and child health care providers to address mental health and substance use disorders among pregnant and postpartum (perinatal) individuals and their children. Fellows will work on existing NIH-funded clinical and implementation studies and help with grant submissions. Fellows will also have the opportunity to work on population-based statewide programs focused on building the capacity of the medical community to address perinatal mental health and substance use disorders in Massachusetts (<a href="http://www.mcpapformoms.org">www.mcpapformoms.org</a>) and other states (<a href="http://www.lifeline4moms.org">www.lifeline4moms.org</a>).</p> <p><b>Requirements:</b> A <b>PhD or PsyD</b> in clinical psychology or related field and completion of an APA-accredited internship with relevant experience.</p>

## THE MOTHERHOOD CENTER

Departmental Affiliation	Psychology
Primary Focus	Perinatal Psychology
Fellowship Duration	Full Time: 12 Months; Part Time: 2 Years
# full-time positions	N/A
Description	<p>The postdoctoral fellow will have an opportunity to pursue research goals related to perinatal psychiatry or material related to ongoing research at The Motherhood Center. Possible opportunities include presentations at conferences, including posters and case presentations, as well as collaborating with The Motherhood Center team on ongoing research projects building the research base on the treatment of perinatal mood and anxiety disorders</p> <p>Requirement: Must have completed their internship and successfully defended their dissertation prior to beginning the Fellowship position.</p>

## NATIONAL CURRICULUM IN REPRODUCTIVE PSYCHIATRY AND MONA TRAINEE FELLOWSHIP PROGRAM

Program Contact Information	
Program Name	<b>National Curriculum in Reproductive Psychiatry (NCRP) and MONA Trainee Fellowship Program</b>
Location	N/A
Website	<a href="#">WEBSITE</a>
Point of Contact	Lauren Osborne MD <a href="mailto:lmosborne@jhmi.edu">lmosborne@jhmi.edu</a>
Fellowship Characteristics	
Posted	N/A
Closes	November 1, 2020
Application Review	December 1, 2020
Start Date	January 1, 2021
Departmental Affiliation	Psychiatry
Primary Focus	Reproductive Psychiatry
Fellowship Duration	2 Years
# full-time positions	N/A
Description	<p>NCRP has recently joined with Marcé of North America (MONA), and ongoing maintenance and update of the materials is now carried out by the Education Committee of MONA. We are delighted now to announce the creation of a two-year fellowship to include trainees in our ongoing updating efforts. Trainees (who can be residents or fellows) will have the opportunity to work on curriculum materials and continuing medical education tests for this national resource.</p> <p><b>Open to:</b> PGY3s and 4s in psychiatry, obstetrics and gynecology, or primary care, and to fellows in any relevant subspecialty in psychiatry, obstetrics, or primary care. Because the material is aimed primarily at psychiatry trainees, those trainees who apply from other specialties should note in their personal statements their degree of familiarity with mental health literature.</p>

## NORTHWESTERN MEDICINE

Program Contact Information	
Program Name	<b>Northwestern Medicine: Feinberg School of Medicine Perinatal and Women's Mental Health Instructor-Level Clinical Psychology Scholar</b>
Location	Chicago, IL
Website	<a href="#">WEBSITE</a>

Fellowship Duration	1 year (Optional 2nd Year)
# full-time positions	2
Description	<p>Scholars will have the opportunity to train in a women's outpatient clinic in the Asher Center for the Study and Treatment of Depressive Disorders as well as a collaborative care obstetrical clinic. Scholars will receive in-depth exposure to and training in: Menstrual-related mood or anxiety symptoms; Treating depression, bipolar disorder, and anxiety in pregnancy, postpartum and perimenopause; Trauma-based disorders, among other things.</p> <p>Application Eligibility &amp; Requirements: Complete an APA approved internship; licensed to practice clinical psychology by the IDFPR in the State of Illinois prior to the anticipated start date of the program.</p> <p>Salary: \$60,000 a year plus benefits</p>

## TULANE UNIVERSITY

Program Contact Information	
Program Name	<b>MatCH Postdoctoral Program</b> <b>Tulane Center of Excellence in Maternal and Child Health</b>
Location	New Orleans, LA
Website	<a href="#">WEBSITE</a>
Point of Contact	Dr. Katherine Theall, MatCH Program Director ktheall@tulane.edu.
Fellowship Characteristics	
Posted	N/A
Closes	N/A
Application Review	N/A
Start Date	N/A
Departmental Affiliation	Social Epidemiology and Population Sciences
Primary Focus	Maternal and Child Health
Fellowship Duration	1 to 2 years
# full-time positions	N/A
Description	<p>The postdoctoral training program provides mentorship and training to enhance the fellow's proficiency in social epidemiology and population sciences, with a Maternal and Child Health (MCH) focus. Selected candidates will use self-directed research to examine a broad range of issues including social and environmental determinants of MCH and health equity. Fellows will engage in an array of program offerings, seminars, and experiential learning opportunities. The MatCH program offers strong mentorship via MCH faculty mentor committee and their partners. It also provides salary, health insurance, and travel funds.</p> <p>Requirements: Applicants must be U.S. citizens or permanent residents. Candidates who have completed doctoral training in varied disciplines are eligible and encouraged to apply. Preference will be given to candidates with research-oriented doctorates (e.g., PhD, DrPH, ScD), and whose work focuses on MCH disparities within the U.S. from an equity and social determinants of health lens.</p>

## UNIVERSITY OF ROCHESTER

Program Contact Information	
Program Name	<b>University of Rochester Medical Center Clinical Psychology Postdoctoral Fellowship</b>
Location	Rochester, NY
Website	<a href="#">WEBSITE</a>
Point of Contact	Linda Brown 585-275-3563 <a href="mailto:Linda_Brown@URMC.Rochester.edu">Linda_Brown@URMC.Rochester.edu</a>
Fellowship Characteristics	
Posted	N/A
Closes	December 15, 2020
Application Review	January-February 2021, Zoom Interviews
Start Date	August 1, 2021
Departmental Affiliation	Psychology
Primary Focus	<b>Integrated Care Family (Women's Health)</b>
Fellowship Duration	1 Year
# full-time positions	N/A
Description	<p>The Integrated Care Family Psychology Fellowship track prepares psychologists for clinical and academic roles in primary care medical settings through education in family psychology and systems theory, collaboration, and health psychology. Fellows provide assessment, consultation, and treatment to patients and families in a variety of health-related settings. Fellows are also provided with opportunities to teach medical students, psychology interns, and medical residents and fellows in multiple medical settings. Fellows are encouraged to participate in scholarly activities related to providing biopsychosocial systems-oriented care in a medical setting. Working in close proximity with providers from a wide range of disciplines also provides the fellow with opportunities for professional differentiation and professional identity development. All fellows participate in individual and group supervision weekly; at least two individual hours are provided by a licensed clinical psychologist.</p> <p><b>Requirements:</b> Must have completed an APA accredited clinical, counseling, or school psychology graduate training program. Must have completed an APA accredited clinical, counseling, or school psychology internship.</p>
Fellowship Characteristics	
Posted	N/A
Closes	December 15, 2020
Application Review	January-February 2021, Zoom Interviews
Start Date	August 1, 2021

Departmental Affiliation	Psychology
Primary Focus	<b>Child and Adolescent Health</b>
Fellowship Duration	1 Year
# full-time positions	N/A
Description	<p>The Child and Adolescent track provides specialized clinical training with children, adolescents, and families. Postdoctoral Fellows provide supervised care of children and adolescents who are experiencing a broad range of psychological disturbances—from adjustment disorders to psychotic disturbances. The training program emphasizes understanding children, adolescents and families from a developmental and systems perspective. Fellows receive intensive clinical training in a wide range of diagnostic skills and treatment modalities, such as individual, group, family, sibling, parent, and parent group interventions. All fellows have the opportunity to integrate both clinical and scholarly dimensions of the field and participate in a scholarly project consistent with their interests.</p> <p><b>Requirements:</b> Must have completed an APA accredited clinical, counseling, or school psychology graduate training program. Must have completed an APA accredited clinical, counseling, or school psychology internship.</p>
